

AbstractFTPservice

```
graph BT; TypeService --> AbstractFTPservice
```

A UML class diagram illustrating inheritance. The class 'AbstractFTPservice' is represented by a white rectangle with a black border at the top. Below it is the class 'TypeService', represented by a gray rectangle with a black border. A solid blue arrow points vertically from the top of 'TypeService' to the bottom of 'AbstractFTPservice', indicating that 'TypeService' inherits from 'AbstractFTPservice'.
